Welcome

We are proud of our 2014 graduates!

Welcome to International Linguistic School

Founded in 2007, International Linguistic School strives to create an educational space that nurtures inquisitive, intelligent students who are concerned about the problems that people face and who are willing and able to take an active stand on civil and social issues, students who work for a better, safer world and who know and love their own culture and history while respecting the culture and history of other nations.

The school combines the Russian Program and the International Baccalaureate Program. Along with our intensive course of language preparation, we provide an individual approach to learning. Teachers focus on each student's success, creating conditions for the development of their natural talents. Our educational programs reflect the values of society and are aimed at personal development, provision of equal opportunity, economic prosperity, respect for democratic principles, and concern for protection of the environment.

Our school aims to develop our students' social, academic and cultural skills, and we value their creativity and enthusiasm for learning, which will help them to be successful in the future.

*Our graduates are leaders in life –
Join us!*

EDUCATION FOR LIFE!

Why ILS?

International Linguistic School (ILS) is the only school in the Russian Far East that is authorized to offer the International Baccalaureate (IB) and accepted for membership by the Association of International Baccalaureate Schools of CIS countries.

ILS is a bilingual school (courses taught in English and Russian). Our students have the opportunity to prepare for and take various exams for international certification: Cambridge University exams YLM (Young Learners Movers), Flyers,KET, PET and FCE. From the 6th grade onward, students also study a second foreign language (Japanese, Chinese, Korean or French).

ILS students participate in the prestigious international competition "British English Olympics"

Benefits of studying at ILS

1.

The opportunity to receive a high-quality international education without leaving Russia, thereby realizing a significant savings for the family budget.

2.

The school's convenient location in the center of Vladivostok provides easy access to any part of the city.

3.

The school offers language internships in various countries of the world, starting with the 5th grade.

4.

Graduates are awarded two documents upon completion of the school: a General Certificate of Secondary Education and an International Diploma.

5.

We guarantee priority admission to leading world universities.

Educational Programs

The goal of our educational programs is to prepare students for successful careers in their chosen fields. We offer:

- **Program for primary grades 5–9.** This program provides students with an excellent opportunity to prepare to study, in the upper grades, in the International Baccalaureate pre-university diploma program. In grades 5-9 the primary language of teaching for the Russian State Program is Russian, with students taking some of their courses in English (Science, Cultural Studies, Economics), while also studying the English language itself.
- **International Baccalaureate Diploma Program for grades 10–12.** All courses in the program are taught in English. Students in the upper classes form their own individual program of study together with their parents and teachers. The IB program offers in-depth study of a range of subjects, aimed at preparing our graduates for further study at institutions of higher education in Russia or abroad. All students go through the Russian State Program in full.
- **Program Pre-PIHMS.** Pre-PIHMS classes are for students in grades 10-11 who plan to continue their education in the field of international tourism and hospitality. After completing Pre-PIHMS 11th grade and receiving a Certificate of General Secondary Education, students enroll in the

International School of Hotel Management VSUES-PIHMS (New Zealand).

- **Engineering.** For students who excel in mathematics, physics, computer science and chemistry – the basis for engineering education for those planning a career in this field – ILS offers an engineering class in grades 10-11.

More than just a school

International Linguistic School classrooms are equipped with modern educational equipment designed to maximize the effectiveness of lessons. The dining rooms in the school cafe offer delicious home-style meals in a handsome setting. Throughout the school, children are surrounded by comfortable, modern interiors, and the spacious hallways are among the students' favorite places for relaxing between classes. Inside the school building and in the areas outside there are special zones where students can unwind and enjoy supplementary extracurricular activities. We firmly believe that supplementary education is an integral part of general education, as it allows students to explore and develop their creative and cognitive abilities and helps them to realize their full potential, determine their future professional path, and achieve success in their individual endeavors.

The school has an in-house physician and uses modern security and video surveillance systems.

What do our graduates say about us?

Alina GUSINSKAYA, IB 12th grade, 2009

«I must admit – sometimes it was very hard, and I wondered if I could continue in the diploma program. But it was so enjoyable and rewarding that I just couldn't give up!»

Yekaterina YURAGA, IB 12th grade, 2010

«Probably everyone loves his school, is proud of it, and will always remember it. As for our school, it is not enough just to love it. We need to return and remind ourselves, again and again, of all the joys and sorrows we experienced here together. My warmest thanks to all our teachers for their support, assistance and invaluable experience. You are a part of our lives, and it is impossible to express in words how much we love you! Thank you so much for all the years we spent together; we will never forget you, and we won't let you forget us. We will return to the school to see you – our wonderful teachers! – this time not as students, but as visitors. We will try to be worthy of the title of graduate and to do everything we can to make you proud of us!!!»

Ksenia ORLOVA, IB 12th grade, 2011

«I came to ILS in the 11th grade and immediately enrolled in the International Baccalaureate program. I thought that I would not be able to handle it, but now I am so grateful to all those who were with me those two years. I will always remember the warm atmosphere and the love that surrounded me at my beloved school. Thank you very much!»

Maria YERMAKOVA, IB 12th grade, 2012

«I entered the school in the 9th grade, precisely because there was an IB program. I did not know, of course, that the program would be so difficult and challenging, nor did I realize that the IB 12th grade diploma I would receive at the end of the program would help me enter HULT International Business School in London immediately as a second-year student. I express my deep gratitude to the whole academic team for their patience in guiding us along our difficult journey through school. Sometimes the zeal and commitment of our teachers were greater even than our own! Only now, three years after leaving ILS, do I realize what opportunities our school and the IB opened for of me!»

Anastasia KORNIETSKAYA, IB 11th grade, 2012

«Before entering ILS, I thought there was nothing in the world more difficult than the IB program. Now I understand that it was excellent preparation for my program at Beijing Foreign Studies University. The IB gave me a clear advantage in my first year there, without which I could not achieve such good results. For example, my studies with Carolyn Lopukhov thoroughly prepared me for my first-year course in Economics. I am very grateful to my Mathematics teachers, Nataliya Panchenko and Roman Lugovoi, thanks to whom Maths comes easily to me now. Elena Chaplygina taught me to work with books, to recognize what matters most, and to grasp the structure of a text. My studies abroad would not have been possible without good English, which I received from Svetlana Feshenko and Nataliya Tishchenko. The IB program also taught me the enormous value of hard work.»

Tatiana ZHIRNOVA, IB 12th grade, 2013

«Thanks to our school, I was able to try myself in different roles, such as singing, theater and school government, experiences that will stay with me forever. I am grateful to our teachers for their talent and perseverance; I always felt their support when making a decision.»

Wooyun JO, IB 12th grade, 2014

«My experience at the school was just great. The education provided by the school gave me an opportunity to learn not only English and Russian, but also Russian culture. I really appreciate the school, and I will never forget my high school life in Russia. I can't express in words how fantastic it was.»

100% guarantee of success

ILS graduates continue their studies at a wide range of universities and colleges worldwide.

Admissions information

We are happy to accept students motivated for in-depth study of foreign languages. Admission to International Linguistic School is based on the results of testing in the English language, Russian language and mathematics. If a student's test results are positive and class space is available, parents and the school sign a contract in the prescribed manner.

List of required documents:

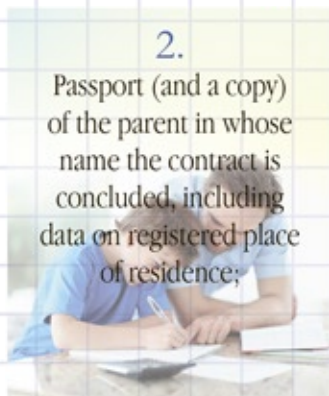

1.

Application to the school
Principal;

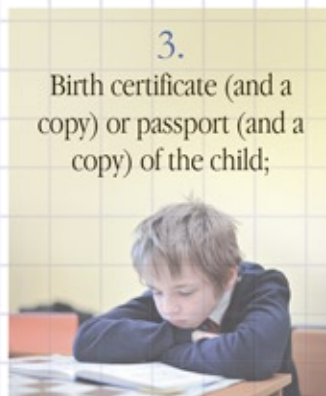

2.

Passport (and a copy)
of the parent in whose
name the contract is
concluded, including
data on registered place
of residence;

3.

Birth certificate (and a
copy) or passport (and a
copy) of the child;

4.

3x4 color photo;

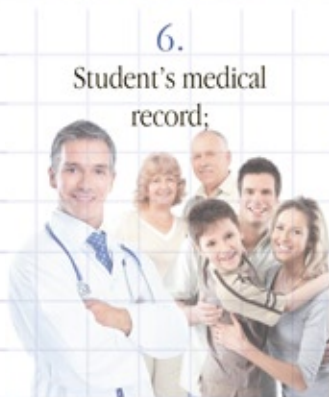

5.

Student's personal file

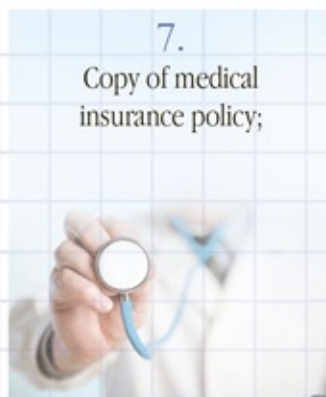

6.

Student's medical
record;

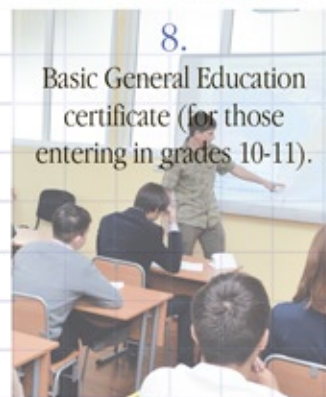

7.

Copy of medical
insurance policy;

8.

Basic General Education
certificate (for those
entering in grades 10-11).
